

# Database Deployment Strategy: Avoiding Merging

A large pile of tangled, light brown string or yarn is shown on a blue surface. The string is messy and disorganized, with many loose ends and loops. The text "The Problem" is overlaid in white, centered on the pile. The background is a solid blue color.

# The Problem

MAKE GIFS AT [GIFSOUP.COM](http://GIFSOUP.COM)

“I’m currently pulling the live database, developing, then pushing to live while crossing my fingers no pages, posts, comments etc. have been added or updated.”

— *Actual Developer Comment*  
*Leeroy Jenkins?*

Why not build a  
database merge tool?

# The Strategy

```
$ git rebase master
```

First, rewinding  
head to replay your  
work on top of it...

Test over and over and...

Blip

# Query Recorder

Save queries run by your theme or plugins to an SQL script for deployment

[Download Version 1.0](#)
